

By your side
and beyond

From the Cardinal Health™ Kangaroo™ Portfolio

Kangaroo OMNI™ Enteral Feeding Solutions for acute care

Versatility and innovation

- One pump that can feed, hydrate, flush and deliver thick formula¹
- Helps support patient hydration and nutrition
- Helps increase staff efficiency with automated flushing capabilities and saves nurses' time
- Provides flexibility with continuous, intermittent or bolus feeding

User-friendly interface

- Step-by-step prompts to program and automate feeds and flushes
- Three-color indicator lights and on-screen flow indicator
- Animated illustrations to guide pump operation
- ENFit™ cap holder
- Audible click when cassettes are loaded correctly

Enhanced patient care

- Increased feed and dehydration accuracy to ensure patients receive proper nutrition at +/- 5% accuracy when using standard formula²
- Interruption monitor screen to determine missed nutrition while the pump is off
- Quiet operation and "night mode" features help make nighttime feeding less disruptive

Programmable flushing

- Pump can be adjusted to flush every hour for 1 to 24 hours with volumes of 10 to 500 mL
- Reduces need for manual tube flushing
- Helps keep tubes clear to reduce the risks of clogs
- Supports patient hydration
- Helps improve compliance to flush orders

For more information or to order, contact your sales representative, call **877.CARDINAL** or visit [cardinalhealth.com/kangaroo](https://www.cardinalhealth.com/kangaroo)

References 1. Thick formula: Enteral fluids of smooth consistency that would be categorized as Level 2, 3 or 4 Drinks within the IDDSI framework. **2.** When compared to the Kangaroo™ ePump and Kangaroo™ Joey
