

“Our ICU nurses could not be happier with liquid ProSource TF. Labor and administration was a dramatic improvement over all other types of modular proteins we’ve used.”

The #1 best selling modular liquid protein made exclusively for tube feeding.

- 11 grams of protein per 45 mL packet
- Water thin. No mixing or stirring required.
- Reduces risk of cross contamination because there is no mixing.
- Low osmolality. 380 mOsm/kg water for good GI tolerance.
- Allergen free; contains no sweeteners, artificial colors or flavors. Soy, gluten, lactose and milk free.
- **Halal Certified**
- Clinically proven to help meet protein needs of ICU patients without over feeding calories.¹

We help people feel better. As leading innovators in the healthcare industry, we have developed a family of effective, clinically proven medical foods that repair and nourish the body to enhance quality of care, speed recovery, reduce costs and lessen reliance on pharmacological interventions.
