Conference Goals and Target Audience

The 2018 MSPEN Annual Fall Conference and Chapter Meeting aims to introduce new therapies, discuss ongoing controversies and update clinicians on current and emerging research in nutrition support. This event brings together a wide variety of nutrition professionals and facilitates interdisciplinary participation, communication, and involvement in the presentation and discussion of existing and evolving issues in nutrition therapy. The programming will include local and national experts to provide unique perspectives and evidence-based information on a wide variety of topics. All sessions are planned at the intermediate learning level, which assumes a general knowledge of the literature and clinical practice in the areas covered. Participation in these sessions will assist in expansion of skills and knowledge base.
